

# MyCounselor Online

## Easy Access to Christian Counseling you can Trust

MyCounselor.Online is easy access to Biblically Christian and clinically proven professional counseling. We are professional counselors with ministry training and experience who partner with pastors to help care for their people. We make counseling easy to access in person at one of our locations in **Kansas City, Springfield, or Columbia Missouri** and **nationwide online** through MyDevice video counseling.

## MyDevice Video Counseling

Telehealth is the way modern day doctors make house calls, just like the old days. MyDevice is our telehealth platform for delivering professional Christian counseling to people in need wherever they are. All you need is an Internet connected device (phone, tablet, computer). MyDevice enables access to specialists in affair recovery, porn & sex addiction, sex therapy, and marriage counseling – even if you don't live near one.

## FreeChristianCounseling.Online

Sometimes cost is a barrier to accessing professional counseling. Free Christian Counseling Online is a service of MyCounselor.Online offering 3 free sessions of counseling to any one in need, with reduced fees of just \$35 for continued counseling. Services through FreeChristianCounseling.Online are provided by counselors provisionally licensed and in training, under the supervision of the experienced MyCounselor.Online clinical team.

## Free Phone Consults for Pastors

As a pastor you sometimes face situations where it would be helpful to consult with a professional counselor. Our team is available to answer your questions and offer counsel on difficult situations with your team or parishioners.

## Confidential Care for You and Your Family

We're here for you and your family also. MyDevice counseling lets you connect confidentially with a professional outside your ministry area – without having to travel.
