

Christian Counselor - Post-Graduate Residency in Neuroscience Informed Christian Counseling®

Organization: MyCounselor.Online

Location: Remote

Job Type: Full-Time

Starting Pay: \$60,000

MyCounselor.Online is seeking a humble, dedicated, and compassionate Christian Counselor to join our post-graduate residency program specializing in faith-based, trauma-informed, experiential, and emotion-focused therapy. In this two-year program, you will receive comprehensive training and supervision in a new therapeutic model while working alongside a team of highly skilled professionals who share your commitment to excellence in practice and personal growth.

This position is an excellent opportunity for a recent graduate or an experienced mental and relational health professional who is willing to learn a new model of therapy and has a preference for working in a collaborative, team-oriented environment.

Work Life

- Build strong, supportive relationships with your colleagues.
- Work in a collaborative and supportive team environment, where you can rely on your colleagues for guidance and assistance when needed.
- Enjoy a work atmosphere that encourages open communication, mutual respect, conflict resolution, and a healthy work-life balance.
- Engage in professional development and training opportunities that will help you expand your skills and expertise, increasing your competence and confidence as a counselor.

- Enjoy a workplace that respects and supports the integration of your faith and values into your practice so you can provide holistic care to you clients and feel aligned with your purpose.
- Receive recognition and appreciation for your efforts and contributions as you strive for excellence in your professional skills.

Responsibilities:

- Provide individual, couple, and family counseling services to clients facing a variety of mental health issues, relationship challenges, and life transitions under the supervision of experienced clinicians. Presenting issues include, but are not limited to, Anxiety, Depression, Marital Conflict, Infidelity, Sex Therapy, Sexual Identity and Gender Dysphoria, and Sexual Addiction.
- Participate in an intensive 2-year post-graduate residency program, including regular training sessions, workshops, and supervision in an experiential and emotion-focused model of therapy.
- Embrace humility and a willingness to learn, demonstrating a growth mindset and a commitment to ongoing professional development.
- Collaborate closely with a team of dedicated professionals, participating in case consultations, group supervision, and team-building activities.
- Integrate Christian values, biblical principles, and prayer into counseling sessions, as appropriate for each client's unique needs and preferences.
- Develop and implement customized treatment plans that address clients' emotional, mental, and spiritual needs, while promoting overall well-being.
- Maintain accurate and up-to-date documentation of client sessions, progress, and treatment plans, adhering to ethical guidelines and confidentiality requirements.
- Serve as a resource and advocate for mental health awareness within the faith community.

Qualifications:

- Master's degree in counseling, psychology, or a related field from an accredited institution.
- Strong foundation in Christian faith and familiarity with biblical principles as they relate to mental health and relationships.
- Excellent interpersonal and communication skills, with the ability to connect deeply with clients and establish trust.
- Demonstrated humility, willingness to learn, and openness to receiving feedback and guidance from supervisors and peers.
- Commitment to ethical practice, including adherence to professional guidelines and confidentiality requirements.

- Preference for working in a collaborative, team-oriented environment rather than in independent practice.

Our organization values humility, compassion, and dedication, making this position ideal for someone who thrives in a supportive, faith-based environment. If you are a mental and relational health professional eager to learn a trauma-informed, experiential, and emotion-focused model of therapy and work collaboratively with a team, we invite you to apply for this unique opportunity to grow professionally while making a meaningful difference in the lives of those you serve.
